BRC 40/22C

DESCRIPTION

Compared to conventional spray extraction machines, the BRC 40/22 C carpet cleaner allows you to work up to 30% faster with guaranteed deep cleaning. This is facilitated by its easy manoeuvrability and the principle of always working in a forward direction so as to avoid unnecessary empty runs.

In the meantime, an integrated sweep bin reliably collects particles lying on the surface, such as hair or loose carpet fibres. The device is ideal for deep carpet cleaning on small and medium-sized surfaces of up to 1,000 m² and can be used flexibly for spray extraction or for intermediate carpet cleaning.
