HTP20S SCALE PALLET TRUCK

DESCRIPTION

High definition of the LDC display can be read from any angle and with back light, it can be used in a dark environment.

Each batch of the product can be weighed multiple times, and finally accumulated to a total weight for avoiding over-load.

The unit of weight can be freely switched between lb and kg to meet different needs of customers.

High accuracy, maximum error of 0.005% of four sensors with ultra- high consistency.

Built -in 4000mAH super capacity rechargeable battery that is durable and convenient to change.

Support external printer, you can convert the numerical data to paper label freely.
